OWENOKE FARM, GREENWICH, CONNECTICUT.

"Years ago, I bought one of your Hodgson houses for my daughters so that they might play house in a real little house. It has not only been a constant joy to the children, but a source of great comfort to the grown-ups, as there has never been the slightest need of repairing anything about the house. Through the worst storms of both winter and summer it has never leaked, and it is in as perfect condition today as when we first set it up. The exterior, now, is very much prettier than it was, as the roses have climbed up to the roof, and form an archway over the porch. I will try to take another photograph when they are in bloom, and will send it to you next June. We feel that you deserve a vote of thanks from the entire family."

Gentlemen—

"I have often thought that the man who designed and developed the Hodgson House should be decorated as a special benefactor of mankind and had he lived in any other country but America, I believe he would have been.

"I have been using the Hodgson Houses for years, both in Maine and in Westchester County and each Spring I marvel how they have withstood the blasting winters they have gone through. Each one in particular seems to defy the elements and when you realize that both of these climates are very hard during the winter months, and that after many years not even a stain of melting snow has come through, you can realize how well they are constructed and put together.

"One house in particular has been used by me for over several years, part of that time as a playhouse for my little girl, but it became too small for her so I purchased a larger Hodgson House for her and turned the other one over for a tool house and there it will probably stay doing good service and no doubt outlast both the gardner and myself.

"I have also used these houses at Goldens Bridge and I am now erecting them at Stone Hedge. I do not know just how they were developed but I will say that they are the nearest thing to perfection in their line, or the nearest thing to 100 per cent plus that I know of."

Very truly yours,

JOHN McENTEE BOWMAN.
